SUBJECT: ACADEMIC ADVISEMENT

General - The academic advising program is designed to provide students with the assistance needed to plan and complete that course of study appropriate to individual needs, interests, and abilities.

It is the student's responsibility to make appointments with the advisor prior to each registration period.

Although the university seeks to provide continuing advisement, the ultimate responsibility of knowing and fulfilling degree requirements listed in the catalog rests with the student.

UNDERGRADUATE PROGRAM

Plainview campus -
